THE ORIGINAL *POWER* IN MOTION.

INTRODUCING THE NEW DAYCO TIMING CHAIN KIT.

Now the offer is complete. From the company world leader in primary drive transmission arrives a new timing chain that

sums up all the Dayco experience and research. Also available in a complete kit including guide, tensioners and sprocket.

High grade steel technology for chains.

Simple chain

Silent chain

High tenacity steel sprocket with surface deep hardening.

Glass fibers loaded high mechanical and wear resistance plastic guides.

Hydraulic tensioner with low tolerance internal machining.

The new Dayco chain is the logical development of the highest standard in technical and material research that distinguishes any Dayco product.

Made following the hardest criteria in quality control, hard trials and reliability, this new chain is ready to give movement in the best way.
